clear	<i>Clean the console and environment-variables</i>
-------	--

Description

Function to clean the local environment. The call of this function clears the console and the local environment variables.

Usage

```
clear(keep_environment = FALSE, keep_console = FALSE)
```

Arguments

keep_environment

(Optional, boolean) If true, the objects from the environment will not be deleted/emptied.

keep_console

(Optional, boolean) If true, the console will not be emptied.

Value

Nothing.
